APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 37415 is issued subject to the terms and conditions imposed in said Permit 37415 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permits 41935, 41936, and 41937 shall not exceed 325.85 million gallons annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.34 cubic feet per second, but not to exceed 316.11 million gallons annually.

Actual construction work shall begin on or before June 22, 1981

Proof of commencement of work shall be filed before July 22, 1981

Work must be prosecuted with reasonable diligence and be completed on or before June 22, 1982

Proof of completion of work shall be filed before July 22, 1982

Application of water to beneficial use shall be made on or before June 22, 1984

Proof of the application of water to beneficial use shall be filed on or before July 22, 1984

Map in support of proof of beneficial use shall be filed on or before
